Beverages supplied by Canyon Explorations/Expeditions: endless filtered water, Country Time pink lemonade, Gatorade (assorted powdered flavors), and Vitalyte, a powdered electrolyte replacement drink. We also supply locally-roasted coffee, instant decaffeinated coffee, regular and herbal teas, and hot chocolate. We have juice some mornings, and a limited number of canned beverages for during the day.

Please consider ordering sparkling water instead of soda -- it’s quite refreshing as well as healthfully hydrating! Remember that you’ll be working hard to stay hydrated while on your trip, and sodas and alcohol are dehydrating – especially for children.

HARD LIQUOR NOTE: NO GLASS! If you would like to bring hard liquor, please decant it into a plastic container or purchase the ones bottled in plastic.

WINE NOTE: NO GLASS! Please decant glass-bottled wine into a plastic container; we have found that the Platypus brand soft plastic bottles work really well (available at select sporting goods stores).

Beverage limits per person:

Full Canyon trips 5 six packs (beer and sodas combined) or 3 three-liter wine boxes

Upper Canyon trips 2 six packs (beer and sodas combined) or 2 three-liter wine boxes

Lower Canyon trips 3 six packs (beer and sodas combined) or 2 three-liter wine boxes

Or any other combination of equal volume

...There is a limit to the total amount of beverages (sodas, beer and wine combined) allowed per person due to finite boat space.

...You must be at least 21 years of age to purchase alcoholic beverages.

...While not a common occurrence, cans/wine bladders can be damaged due to the nature of transporting them downstream.
